

# IMPORTANT PTA NUMBERS

There are several important “numbers” assigned to your PTA which the president and treasurer should be aware of. This is a brief list of those numbers.

## **NATIONAL PTA IDENTIFICATION NUMBER**

This identification number is assigned by National PTA and is unique to your local unit or council. It is available on all National PTA mailings directed to your PTA. It is also available on the Illinois PTA membership reports and can be obtained from your District/Region Director or the state office. This number may be requested along with your PTA name and address to correctly identify your PTA. For example, this is the number that appears on the electronic membership cards and the Reflections entry form.

## **FEIN/EIN**

The Federal Employer Identification Number is assigned to each PTA by the Federal Government when the PTA is formed. The Illinois PTA office assists with this process and has a list of all active numbers should you need to verify your number. This number is required on all IRS forms. It should also be used on your PTA bank accounts since it is the equivalent of a social security number for an individual.

## **GROUP EXEMPTION NUMBER**

The Illinois PTA four-digit Group Exemption Number (GEN) is 9405. This number was assigned to Illinois PTA and all constituent organizations, including your PTA. This number is necessary for filling out a 990, 990EZ or 990-N.

## **ILLINOIS SALES TAX EXEMPTION NUMBER**

As a local unit of the Illinois PTA, your PTA is exempt from paying Illinois sales tax on items purchased for use by your PTA. The Illinois PTA provides a copy of the letter from the Illinois Department of Revenue giving you the Illinois PTA Sales Tax Exemption number. This letter may be used by members of your PTA to make PTA purchases, not individual purchases. Be sure that this letter is used in accordance with state laws regarding sales tax.

## **INDIVIDUAL SOCIAL SECURITY NUMBERS**

Individual Social Security Numbers should not be used to establish a PTA account. Based on the provisions of the Patriot Act, banking institutions are required to follow procedures for identity verification for anyone seeking to open an account by determining if applicants appear on terrorist lists, and maintaining certain records. The procedures are for all customers. Therefore, signatories on your PTA accounts can expect to be required to provide their social security number to the bank for identification purposes only. The number on the bank account and your bank statements should be the FEIN/EIN, not a social security number.
